SUMMARY

Enthusiastic MERN Stack Developer with strong knowledge of React.js, Node.js, and MongoDB, and practical experience using Firebase for backend development. Passionate about building responsive web applications and continuously improving technical skills through real-world projects.

EXPERIENCE

MERN Stack Developer

Smart IT Innovation • Jan 2025 – Nov 2025

- Worked on projects with interactive maps and location features for clients.
- Helped the team with front-end and back-end tasks and learned more about the MERN stack.
- Tested and fixed issues to make sure applications worked well and were easy to use.
- Supported the team to complete projects on time and meet client requirements.

Frontend Developer

Soft Solution • Sep 2024 – Jan 2025

- Developed responsive and user-friendly interfaces using React.js for web applications and React Native for mobile apps.
- Collaborated with designers and backend developers to implement modern UI components and optimize user experience.
- Integrated APIs and managed state using React Hooks and Context API.
- Improved performance and load times through component optimization and code refactoring.
- Participated in team code reviews and contributed to building reusable UI components.
